

Billtrust Expands Print and Mail Coverage in North America

Billtrust opens new processing facilities in Sacramento, California and Toronto, Canada

Jamesburg, NJ ([PRWEB](#)) September 16, 2009 -- Billtrust, the leading [billing service](#) provider, today announced the expansion of the Billtrust Distribution Network (BDN) to include two new facilities in Sacramento, California and Toronto, Canada. With the addition of these facilities, the BDN is now supporting its customers via six regional locations in New Jersey, Florida, Illinois, Oregon, California and Toronto.

With the BDN, Billtrust customers receive faster mail times as their invoices and statements are sent from the postal location closest to the bill recipient. Billtrust technology identifies the optimal location for mailing based on a historical database of mail times to different zip codes gathered through the use of the USPS OneCode intelligent barcode. Bills are then distributed electronically to the optimal print/mail facility based on the zip code of the recipient.

"Our print and mail facilities were carefully chosen based on several key factors that help Billtrust deliver optimal mail times at the lowest possible transactional cost", said Mitch Karp, Billtrust's VP of Operations. "The BDN is a significant benefit for businesses that are printing and mailing their bills to a wide geographic area. The BDN reduces mail time by 1-3 days which will ultimately lead to faster payment for our clients."

"As a national biller, it is important to us to mail from multiple facilities in order to speed our mail times and accelerate our payments," said Steve Glinski, Controller at Omni Cable Corporation. "One of the reasons we selected Billtrust was their national footprint so we're thrilled with this expansion into two additional locations."

Billtrust's [outsourced billing service](#) is being used by hundreds of companies who typically save between 20-35% on the cost of sending their bills. These companies also benefit through advanced billing tools that increase customer satisfaction and drive efficiency in the management of billing inquiries.

About Billtrust:

Headquartered in Jamesburg, NJ, Billtrust is a leader in outsourced billing solutions. The company's flagship product and service suite, called CompleteBilling, consists of paper, fax, e-mail and online billing (EBPP, EIPP). In addition, the company provides expert bill design, in-bill marketing services, and an integrated online customer service tool called CustomerCare. These comprehensive tools automate the billing process, enabling businesses to save money, increase productivity, improve cash flow, and seamlessly migrate to electronic delivery. More than 350 companies nationwide rely on Billtrust for their billing needs. For more information, visit Billtrust online at www.billtrust.com.
