

FOR IMMEDIATE RELEASE

BILLTRUST ANNOUNCES *COMPLETEBILLING* FOR ECLIPSE

-- Improves Customer Service, Increases Productivity, Provides Electronic Delivery Options for Users of Intuit's Premier Distribution and Wholesale Management Service --

PRINCETON JUNCTION, NJ, November 10, 2003 – Billtrust, a leading provider of outsourced billing solutions, today announced the release of its CompleteBilling™ product for use with Intuit's® Eclipse™ Distribution Management Solution (DMS). The CompleteBilling solution enables companies to significantly reduce the time and cost associated with customer billing, accelerate cash flow, improve customer service, and easily begin the migration to electronic billing.

Instead of printing invoices and statements in-house, Intuit Eclipse users can now electronically transmit bills to Billtrust for processing. Billtrust's SmartRouting™ technology automatically determines the most cost effective delivery route including e-bill, e-mail, fax, or U.S. mail. With a guaranteed 24 hour turnaround, Billtrust offers the most extensive range of outsourced billing services available for small and medium-volume businesses, including: bill design consultation; variable marketing messages and inserts; and comprehensive reporting.

“CompleteBilling has reduced our billing costs, allowed us to eliminate leased mailing equipment and redirect manpower to our core business,” said Rod Sanders, manager of MIS for Consolidated Supply, and head of the independently formed Eclipse User Group. “Our customers now receive a more professional and easier to understand invoice, which reinforces our corporate image, eliminates customer confusion, and reduces delayed payments and unnecessary customer service calls.”

With the ability to either send bills electronically or via the United States Postal Service (depending on the customer's preference) CompleteBilling also provides Intuit Eclipse users with a seamless transition to electronic billing. Users are now able to reap the rewards of the customer service and productivity advantages of the technology, without the cost or hassle of installing and maintaining an in-house e-bill solution.

“Outsourced billing is a powerful way for businesses to significantly reduce operations costs and increase productivity,” said Billtrust President, Flint A. Lane. “Our alliance with Intuit has enabled us to expand our delivery of these services to wholesale distributors.”

The availability of this new service for Intuit Eclipse users comes at a time when ever-increasing competition and the economic downturn has companies searching for ways to reduce costs and improve customer service. By outsourcing their billing processing, businesses gain a faster bill turnaround, which results in improved cash flow and cost savings. Additionally, companies can achieve improved billing capabilities, such as better design and printing, variable marketing stuffers and customer-specific messages as well as state-of-the-art electronic billing.
