-- Billtrust and DMSi Software Form Strategic Alliance to Offer Outsourced Billing Service for Wholesale Distributors --

WINDSOR, NJ, and OMAHA, NE, July 18, 2005 – Billtrust, the leading billing service provider for the distribution industry, and DMSi Software, a premier supplier of business management solutions for lumber wholesalers and building material distributors, today announced a strategic alliance to enhance DMSi’s solutions in the critical area of billing services. DMSi Software will offer its client companies Billtrust’s CompleteBilling™ Service, which includes outsourced paper and electronic billing, an online customer service tool, expert bill redesign, and in-bill marketing.

Instead of printing invoices and statements in-house, DMSi customers can now electronically transmit bills to Billtrust for processing. With the ability to send bills via U.S. Mail or electronically, depending on the customer’s preference, CompleteBilling™ provides DMSi Software’s clients with a seamless transition to electronic billing, allowing them to cut their billing costs by over 50%.

“Our customers are always interested in reducing costs and getting paid faster,” said DMSi President Cal German. “Outsourcing invoice and statement processing and delivery to Billtrust achieves these goals while simplifying their business and freeing-up valuable personnel resources.”

The first client of the alliance is Erie Materials, Inc., wholesale distributors of residential and commercial roofing, siding, windows, doors and related building products. “We needed a cost effective outsourced billing service with flexible capabilities, and Billtrust delivered a highly reliable solution,” said Erie Materials Director of Information Systems Rose Townsend. “Billtrust has helped Erie Materials eliminate forty hours per month that staff spent preparing customer bills, and has reduced the company’s billing related costs by over 20 percent.”

“DMSi is a key partner for Billtrust, as shown by the value that clients like Erie Materials can achieve with DMSi’s software and our billing service,” stated Billtrust President Flint A. Lane. “With DMSi Software’s breadth of business management solutions and Billtrust’s billing technology and services expertise, we are uniquely positioned to help their building material customers increase profitability through better billing.”

About DMSi Software

For nearly 30 years, DMSi Software has been the leading business management solution for building product distributors and lumber wholesalers. More than 350 of North America's top lumber and building material suppliers use DMSi software to manage daily activities in over 1,000 distribution yards, warehouses and offices.
