

# Is your AR process fueling growth... or hindering it?

Accounts Receivable (AR) isn't just about payments. When fully optimized, it's one of your company's strongest advantages. Get paid faster, cut costs, and free your team for higher-value work. **What do you want to achieve?**

## The Path to AR Excellence

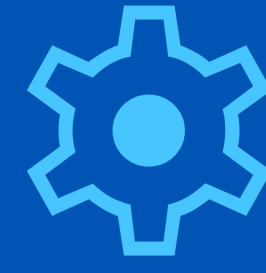

### The Manual Grind

Slow, Costly, Inefficient

Paper invoices cost **10x** more than digital invoices.

**25%** of finance teams' time is wasted on manual tasks.

### Automated AR

Smarter, Faster, Stronger

**~4,500+** hours saved annually for a 20-person AR team

Invoice processing is **80%** faster (8-10 days → 1-2 days)

AI-driven AR boosts revenue by **39%** per employee

### Holistic AR

The Power of End-to-End Integration

**6x** increase in ACH volume with customer payment optimization

**91%** payment match rate with seamless system integration

**45%** better match rates with AI-driven cash application

**53%** collection efficiency improvement through automation

### Fully Optimized AR
